

## Coachman Catalina Lite 249QB

Contributed by Jim Miller  
Sunday, 03 February 2008

My wife and I have owned a 1988 pop-up camper for several years and have really enjoyed camping. We decided to upgrade campers to gain some creature comforts but didn't want to spend a fortune. After a lot of seaching for a good deal on a travel trailer in good condition we found this 2000 Coachman Catalina Lite 249QB 24ft camper. We've only been out in it once so far but WOW is it nice having heat, hot water, a refridgerator, and everything else like home! I've thrown up a quick page with lots of pictures of our new toy. Click read more to see them all!

Catalina Lite

I haven't had time to do much more than throw some pictures online but scroll down to see lots of images of the new (to us) camper.
